ABOUT ME

Motivated Computer Science graduate (2025) with hands-on experience in Software Development and Full Stack Python Development. Completed 3 months of Software Developer Training at Hackgenix and developed real-time web applications and front-end projects. Strong foundation in Python, SQL, and web technologies. Passionate about building scalable applications and continuously improving technical skills.

PROFESSIONAL TRAINING

Software Developer Trainee

Hackgenix Company | 3 Months | 2025

- Completed intensive training in software development and application development
- Developed a real-time web-based project during training
- Implemented frontend-backend integration
- Worked with Python and MySQL for backend development
- Gained practical exposure to full stack development concepts

Internship & Training

Sales Intern (Remote)

Softsquare Company | [August] – [September]

- Acquired practical knowledge of sales processes through online training modules and exercises
- Assisted the sales team in researching and identifying potential leads using digital tools
- Prepared and delivered online presentations to demonstrate product benefits to clients
- Conducted market analysis to tailor sales strategies and improve client outreach
- Completed sales exercises designed to enhance skills in negotiation, communication, and problem-solving

Leadership Experience

Coordinator

- Organized and led a team of students for event/project like building activities
- Managed communication and collaboration between different teams to ensure smooth operations
- Conducted sessions on goal setting, time management, and effective communication for peers

PROJECTS

I am also worked on few project to improve my knowledge and understanding of different parts of my field . Below are the projects

🏫 Institute Website Development

Technologies: HTML, CSS

Duration : [2025]

- Designed and developed a static institute website
- Created structured pages including Home, About, Courses, and Contact
- Designed clean layout and user-friendly navigation
- Ensured proper alignment and styling using CSS

🏢 Company Responsive Website

Technologies: HTML, Tailwind CSS

Duration : [2025 - 2026]

- Developed a fully responsive company website
- Used Tailwind CSS for modern UI and responsive design
- Optimized layout for mobile, tablet, and desktop screens
- Implemented structured components and reusable design sections

🚀 Interactive 3D Learning with Holographic Virtual, Voice & Gesture Assistant

Technologies: Python , AI Concepts, 3D Visualization (Conceptual), UI Design

Duration : [2025 - 2026]

- Designed an immersive learning platform using 3D holographic visualization concepts
- Integrated voice and gesture recognition concepts for enhanced interactivity
- Proposed AI-driven virtual assistant for navigating educational content
- Focused on improving engagement through hands-on interactive learning
- Developed system architecture and workflow design for the concept

♿ Design Thinking for Independent Life for Disabilities

Technologies: Figma, UI/UX Principles, Design Thinking Methodology

Duration : [2024]

- Developed an assistive solution to improve daily life for individuals with disabilities
- Conducted user research and identified key accessibility challenges
- Created wireframes and interactive prototype focusing on accessibility and independence
- Applied design thinking methodology (Empathize, Define, Ideate, Prototype, Test)
- Tested prototype with users and received positive feedback for usability and impact

🍴 Basic UI/UX Design for Restaurant Menu & App Template

Technologies: Figma, Wireframing Tools, UI/UX Design Principles

Duration : [2024]

- Designed a user-friendly restaurant menu and mobile app interface
- Created low-fidelity and high-fidelity wireframes
- Developed interactive prototype demonstrating browsing and ordering features
- Focused on clean layout, easy navigation, and seamless user experience
- Applied color theory, typography, and layout principles

EDUCATION

Bachelor of Technology in Computer Science & Business Systems

E.G.S.Pillay Engineering College,Nagapattinam.

Graduated: 2025 | CGPA: 8.6/10

- Representatives of student for one year
- Gained a solid foundation in Ms-word ,Ms-Excel and Ms-Powerpoint
- pursued my passion for programming language through website,workshop,class
- UI/UX : Worked on creating intuitive and visually appealing designs for web and mobile applications
- Database Management Systems : Designed and optimized relational databases for efficient data management

VOLUNTEER WORK

- During my Education , I volunteered at my Department (TOWEN) to Assisted in organizing and Worked closely with speakers and attendees to ensure smooth event execution
- Led a team to organize technical , non-technical and creative challenges for students
- Helped setup demonstrations and interacted with participants ,making the Symposium one of the most successful

PERSONAL INFORMATION

Father's Name : SathikBatcha

Birth Date : 06.02.2004

Sex : Female

Marital Status : Single

Nationality : Indian

PASSPORT DETAIL

Passport No : Y5359517

Expiry Date : 27.08.2033

LANGUAGE

Tamil: Native

English: Fluent (Written and Spoken)

Hindi: Intermediate (Understand)

EXPERTISE

Technical Skills

- Ms-office include Ms-Word,Ms-Excel and Ms-Powerpoint
- Programming Languages: Python (Intermediate), Database SQL (Basic)
- Frontend Technologies:HTML, CSS, Tailwind CSS
- Tools & Technologies: Eclipse, PyCharm, VS code,Git and Github
- Concepts: Object-Oriented Programming (OOP), Data Structures, Database Management
- Recent knowledge in Internet Usage

Soft Skills

- **Collaboration**: Strong team player, able to work effectively with diverse groups to achieve common goals
- **Meeting Deadlines**: Skilled in prioritizing tasks and managing time to consistently meet deadlines
- **Organization**: Highly organized, with the ability to manage multiple tasks and maintain attention to detail

CERTIFICATIONS

Python - Great Learning (2022)

- Completed a comprehensive course on Python, including data structures, programming basics, and web scraping

Honours Diploma in Computer Application (HDCA) 2021 - 2022
Computer Software College (CSC) Affiliated to Bharathidasan University,Kumbakonam

- Completed a comprehensive one-year course covering topics such as MS Office, programming, Visual Basic and database management
- Gained hands-on experience in computer applications, including software tools and basic programming languages

Workshop on Python Programming (2024)
Organised by Top Engineers ,IIT Madras Research Park

- Attended a hands-on workshop on Python covering foundational concepts such as data types, loops, functions, and basic file handling

ACHIEVEMENTS

Leadership Award, 2023

- Recognized for exceptional leadership skills in organizing and managing [TOWEN SYMPOSIUM], coordinating a team of 20 members, and ensuring the successful participation of over 500 attendees

INTERESTS

- Exploring emerging technologies
- Participating in coding challenges
- Passionate about building scalable and efficient software solutions using modern technologies
- Interested in optimizing database systems and exploring data management techniques, including SQL, NoSQL, and data modeling

DECLARATION

I hereby declare that the details furnished above are true and correct.The information presented in this resume accurately reflects my qualifications and experience.

Sincerely yours,

sajeena Banu
